

Document Automation Pilot Review

Structured executive memo based on source memo and pilot metrics

Executive Message

Continue the pilot for one more quarter, add a reviewer checklist, and publish a shared theme package.

Main Points

- The pilot improved document turnaround time from five days to two days.
- Reviewers reported fewer formatting issues after template standardization.
- The team wants a concise executive memo, a PDF export, and a five-slide summary deck.
- Risks include inconsistent source data quality and unclear ownership of final review.

Pilot Metrics

Metric	Baseline	Pilot	Change
Turnaround Time	5 days	2 days	-3 days
Formatting Rework	14 count	4 count	-10 count
Reviewer Satisfaction	3.4 score	4.5 score	+1.1 score
Documents Processed	18 count	42 count	+24 count

Risks

- Source data quality remains inconsistent across intake materials.
- Final review ownership needs a clearer single accountable role.

Recommended Actions

1. Extend the pilot for one additional quarter.
2. Add a reviewer checklist to reduce ambiguity before final review.
3. Publish a shared theme package for memo and deck outputs.
